

# Kim Abcouwer, Software Engineer

Denver, CO | (303) 885-6169 | kimberly.abcouwer@gmail.com | [LinkedIn](#) | [GitHub](#) | [Project Portfolio](#)

---

## PROFILE

Software Engineer skilled in object-oriented programming, testing, and maintenance of software systems. Knowledgeable in API development and integration, database analytics, and debugging processes. Able to effectively self-manage during independent projects and thrive in a team setting.

---

## PROFESSIONAL EXPERIENCE

Dec 2021 — Nov 2022      **Aktivate**      Remote

### *Software Developer I (Feb - Nov)*

- Spearheaded third-party API integration for healthcare options during sports registration
- Owned responsibility of debugging and improving functionality of sports registration and sports scheduling
- Designed, documented, and successfully deployed Google Ad Manager integration
- Participated in replatforming and rebranding effort of sports registration website

### *Support Engineer (Dec - Jan)*

- Maximized two applications' functionality and efficiency using Ruby on Rails, PHP, Javascript, SQL, and ActiveRecord
- Quickly onboarded and improved close time of bugs board tickets

May 2021 — Nov 2021      **Turing School of Software & Design**      Denver, CO

### *Backend Engineer*

- Authored and maintained well-organized, efficient, and successful code bases with a focus on object-oriented programming and test-driven development
- Designed and implemented RESTful APIs
- Contributed to multiple paired and group projects, excelling in collaboration, organization, and planning while proactively supporting the growth of other developers

---
